One More Night

Andrew Allen

One more night, if all I had to give was one more night with you
You'll take a photograph of me, and then you'll see
I'll take a photograph of you, but you are cuter than me
We'll take a photograph, of both of us right here right now

We'll make the time stand still
One more night, if all I had to give was one more night with you
'Cause if one more night, was all we had then I'd want

One more night to be two
I'll write a silly song for you, you'd say I'm sweet,
You'd buy lemonade for me, I would say you are neat,
We'd pretend we hear a sound when the sun goes down,
If all we have, and all we know, is love we share, and love we show
