Supergirl

The Fugs

There's so much to do
What ever it is you'll see it is you'll it through
Baby it's your world
Super girl
Baby take your time
You'll figure it out with your beautiful mind
I'm living in your world
Super girl
You've come so far in so little time
Look how much you've grown
I watch you struggle, I watch you try
Try to make a life of your own
So let the tears falling down your face
Water your dreams, they won't go to waste
There all yours baby
There is so much do
Whatever it is you'll see it through
Baby it's your world
Supergirl
You made me believe in me
Showed me something that I never saw
You've forever teaching me
You're a never-ending waterfall
I'm in love....and your sacrifice
So the ones you love have a better life
And I thank you baby

There is so much to do
Whatever it is you'll see it through
Baby it's your world
Supergirl
Baby take your time
You'll figure it out with your beautiful mind
I'm living in your world
Supergirl
With everything you do
I'm always so amazed by you
I wouldn't want to live a day without my super girl
There's much to do

Whatever it is you'll see it through
Baby it's your world
Super girl
Baby take your time
You'll figure it out with your beautiful mind
I'm living in your world
Supergirl
(There's much to do) You'll do it all
Whatever it is you'll see it through -yes you will
Baby it's your world
Super girl
