Gimme Somethin' True

Basement Jaxx

those lonely nights you spent with family baby done something to you,
those loving nights when we were one without a care we used to do,
i need to find the love we lost & hide between the cracks of what we knew
another sole i go wonder through the maze of love & care for something true
know the dawn is coming soon
so baby hold me close & set me free
because the magic is the music & the music is my melody
c'mon now gimme gimme gimme gimme gimme gimme gimme something true
c'mon now gimme gimme gimme gimme gimme gimme gimme something true
(basement jaxx representing new york city)
those lonely nights you spent with family baby done something to you,

those loving nights where we were one without a care we used to do,
if we could face the family b'y we'd find the rhythm to set our mind & body free
but girl it's magic when we touch
oh when we touch just you & me
know the dawn is coming soon
so baby hold me close & set me free
because the magic is the music & the music is my melody
c'mon now gimme gimme gimme gimme gimme gimme gimme something true
c'mon now gimme gimme gimme gimme gimme gimme gimme something true
(everybody get up)
