

My Kind America

Big Smo

With my hand over my heart
Eyes to the sky
Pledge my allegiance
To the stars and the stripes
That's what I was taught
Before I even knew why
The American way
Is that why we fight for our freedom
But what's the meaning
If we don't try
Better get it all together
Or we're all gonna die
Terrorize our lives
And we all gonna rise
One Nation under God

With our guns on our side
Presidential candidates
Lookin' like a buncha fakes
Line 'em all up and see
If they got what it takes
To represent the people
For us who saw the prequel

The last decade was controlled by the evil
With the man in charge
And his global entourage
I coulda done a better job
From my two car garage
So what's it gonna take
Compassion state to state
Give me all the details
And draft a mandate
I'll see it carried out

Can't you hear the children shout
Their future's lookin' dim
If we don't do something about it
For heaven's sake
Why we lookin' so afraid
Media fed minds

Man why we so blind ... come on!
Maybe if we work a 'lil bit harder
We could get a 'lil bit farther

For our sons and daughters
My kind America
People, we can be our own leaders
And live a little bit freer, if we fight for
My kind AmericaJust call on me brother
When you got a plan
We all need America to be strong
I'll stand up for my sisters
When they need a hand
We got to lead America to be Strong
