Identikit

Burning Airlines

Sleep fast once there's nothing left inside
That we all can love
That we all can love
Sleep fast once there's nothing left inside
That we all can love
That we all can love
That we all can...
..And I see you messing me around
I don't want to know
I don't want to know
I don't want...
..And I see you messing me around
I don't want to know
I don't want to know
I don't want..
Broken hearts make it real
Broken hearts make it real
Broken hearts make it real
Broken hearts make it real

Broken hearts make it real
Broken hearts make it rain
Broken hearts...
This our world of our mankind
That you can create
That you can create
That you can..
This our world of our mankind
That we can create
That we can create
That we can..
..And I see you messing me around
I don't want to know
I don't want to know
I don't want...
..And I see you messing me around
I don't want to know
I don't want to know
I don't want to know
