

Summer Girls

Juliet Lyons

Golden lighted days
The longest days of the year
Smiling like we're babes
You'd smell the salt

When we're nearEnough to touch, and you'd wanna touch forever
But you knew, you knew it's now or neverSummer girls fade with the sunset

Summer girls, you won't forget us
And how we blew your mind
In that wrinkle in time....Sandy warm skin
A song in the air
Always on the waves
We'd laugh and play

As you staredWe never rushed, cuz we weren't afraid to savor
All we dared, everything that made us braverSummer girls fade with the sunset
Summer girls, you won't forget usSummer girls fade with the sunset

Summer girls, you won't forget us
And how we blew your mind
In that wrinkle in time....
