

Until I Met You

Sundy Best

I fell a victim to a long hard way of living
I was a beaten path
I got lost in my own self reservations
Man when I look back Chorus
Used to drive them girls wild
Yeah I had me a few
I was a wild child
I broke some hearts in two
Never was the kinda guy you wanted around
There was nothin that i would do
Until I met you
Until I met you You could say i was star struck in your presence
You weren't like all the rest
You didn't care if i sounded like a country singer
No you weren't impressed Chorus
Used to drive the girls wild
Yea I had me a few
I was a wild child
I broke some hearts in two
Never was the kinda guy you wanted around
There was nothin I would do
Until I met you
Until I met you Bridge
Well you held me down
And you held my hand
Til i didn't want to let go
So i settled down
Til you came around
Cause I didn't want you to know Chorus
Used to drive the girls
