

# Midnight Walking

## Simple Minds

The??? mass confusion  
I've come to the conclusion  
Go out Midnight Walking  
May be the only way to go now  
The age where it's essential  
To keep it for memento  
We go out Midnight Walking  
Trying to find somewhere to go now We go high, high, high  
Little the lonely lone  
High, high, high  
Found somewhere to go now  
We go high, high, high  
Are those people  
Little the lonely lone  
Silent people  
We go out Midnight Walking  
Trying to find somewhere to go now  
Find somewhere to go now  
The itch of desperation  
There's some new evaluation  
We go out Midnight Walking  
'Cause it's the only way to go now  
And the age where it's essential  
To make up transcendental  
We go out Midnight Walking  
We go through heat wave after snow now We go high, high, high  
Little the lonely lone  
High, high, high  
Found somewhere to go now  
We go high, high, high  
Are those people  
Little the lonely lone  
Silent people  
We go out Midnight Walking  
Trying to find somewhere to go now  
Find somewhere to go now  
High, high, high  
Are those people  
Watching people

Found somewhere to go now  
And are those people  
Silent people  
High, high, high  
Along the people  
Found somewhere to go now  
We go high, high, high  
Little the lonely lone  
We go high, high, high  
Watching people

Found somewhere to go now
