

# Just Because

## Twin Danger

There's a charm and there's a mystery  
And little sense of uncertainty  
Just because I pretend and I really try  
Tell myself I'll still get by  
Just because Is it me with whom you'd like to be  
Love will come and go  
But it's here deep inside of me  
Moving real slow  
There's no words, there's no sympathy  
Barely time for a memory  
Just because Kiss me softly, no surprise  
Anytime or place you like  
Just because  
Is it me with whom you'd like to be  
Love will come and go  
But it's here deep inside of me  
Moving real slow There's a charm and there's a mystery  
A little sense of uncertainty  
Just because
