

Been Away Too Long

Midnight Oil

Fresh air soft landing
So good to be home
This bruised world's got its beauty
It's where I belong. The sight of those green curves
Quickens my heart
Break the grip of Leviathan
Now I'm ready to start. Have I been away too long
Have I been away too long
Have I been away too long
I just can't wait. Saw big smoke umbrella
Blue lights up close
Exploiters of psyche
Stealing the code.
