

One Way Down (Live in Nottingham)

Nashville Pussy

Baline Cartwright? Ruyter Suys? Jeremy Thompson? Karen Kuda - Daniel Rey There ain't but one way down

So turn yourself around

You'll start screaming

When you hit the ground

One way down

And the bottom's coming fast

I look at you

You ain't gonna last If you forsake your heart

And ignore your head

You're just another sucker

Who's gonna end up dead

One way down

Turn yourself around

You'll start screaming

When you hit the ground

Cause what do you do baby

You don't care

Spinning wheels

Going nowhere

You had lots of warnings

Here's one more

You probably will ignore There ain't but one way down

and it ain't no joke

Your ass is on fire

Don't even smell the smoke

You called game over

Before it even began

Now you're running crazy

In a fool's last stand

What do you do baby

You don't care

Spinning wheels

Going nowhere

You had lots of warnings

Here's one more

You probably will ignore

That? s we shore Well, in the beginning

You know it's the truth

God hade a big bag of monkeys

He went and set 'em loose
But their fucking and fighting
Got him madder each day
So he sent down a superchimp
And this is what he say One way down
I ain't hanging round for long
Write down what I say
And don't get it wrong
One way down
And you've been warned
Please nail me up
Send me back home
