Keeper Of The Flame

A-ha

Give it up for rock 'n' roll, give it up for rock
Give it up for how it made you feel
Give it up for vinyl days kicking back from school
Turning out to make it real sweet
Give it up for rock 'n' roll, give it up for Bob
Give it up for how it made you see
Give it up for silver tone, give it up for golden
Adolescent daydreams
Incidental incidents, instrumental instruments
A plan evolves too grand to entertain
Monumental monuments, sentimental sentiments
You could've been the keeper of the flame
You could've been the keeper of the flame
One day
Incidental incidents, instrumental instruments
Swallowed by the place from which you came
Monumental monuments, sentimental sentiments
You should've been the keeper of the flame
Give it up for summer days, laying in the grass
Everything is happening in your head
You raise your fist up in the air, clench your teeth and say
Four more years and I'm out of here
Give it up
Give it up
Give it up
Four more years and I'm out of here
