Don't Get Angry

Blue Rodeo

If you see some picture of us
Lying on the bed
Some old memory haunts you
Gets stuck inside your headDont get angry about it
And wish wed never been
Dont get roped into a corner
And try changin' everythin'Dont get paralyzed with fear
And stand there wonderin' what to do
Just forget it, girl
And I will tooIf youre on our corner
And you run into our friends
If they ask about me
Start wonderin' where I amDont get angry about it
Feel like youre cavin' in
Dont start cryin' again
And go and tell them everythin'Dont you walk away believin'
You will never make it through
Just forget it, girl
And I will tooIf some rainy afternoon
Youre cryin' in your bed
Cursin' every detail
'Bout the day that we first metDont get angry about it
Start throwing everythin'
Dont get struck dumb in your steps
Each time you hear the doorbell ringTake some comfort in knowin'
These are things that I will do
I cant forget it, girl
Though I try toI cant forget it, girl
Though I try to
