The Solution

The Brandos

No need to wonder, do you belong
No need to worry, you can be strong
Don't disbelieve it, let your fears go
There must be more to this life and we all know
Deep inside the solution, staring you down
Looking for the solution, bringing you round
Round and round we go, round and round we go
The past can haunt your future so
Shadows are falling, look out below
Voices are calling echoes unknown
There must be more to this life than we all know
Looking for the solution, staring you down
Deep inside the solution, bringing you 'round

Giving in, giving out, do the best you can do
Giving in, giving out, it's all up to you
Giving in, giving out, do the best you can do
Giving in, giving out, it's all up to you
Over and under and down we go, down we go
Caught at the crossroads, which way to go? Path unknown
Choosing the right path, only you know
Looking for the solution, you hold the key
Deep inside the solution, set yourself free
Round and round we go, round and round we go
Giving in, giving out, do the best you can do
Giving in, giving out, it's all up to you
It's all up to you, it's all up to you
