I Want Everything

Sneaky Sound System

I'm standing in your corridor
I wonder what Im waiting for
The leaves are drifting out to sea
I'm waiting for you desperatelyAll things beautiful, all things beautiful
I want everything, I want everythingYou call us with your silent seas
You call us in our tiny boats
Gather us up with the storm
And cast us out upon the shoreAll things beautiful, all things beautiful
I want everything, I want everything
I want everything, I want everythingYou're deep inside this fecund swamp
Or let it be your beating heart
You're deep inside this fecund swamp
You call us in our tiny boatsAll things beautiful, all things beautiful
I want everything, I want everything
I want everything, I want everythingI want everything, I want everything
I want everything, I want everything
