

# Carpal Tunnel Tomb Torker

## Buckethead

I'm coo coo for Cocoa Puffs  
Well, I'll be, it's Jim McFadden and his family  
How you guys doing? How's the rides and such treating you?  
Oh, little Jimmy McFadden has a codename  
Have you guys had the go on maggots? This is Little Little's reporting from Bucketheadland  
If you're nosing around and you hear the howling wind  
Or the bleeding of possessed farm animals  
You must have wandered into the haunted farm  
And that means you're in the slaughter zone That's where we keep all our most dangerous rides  
That made us famous  
Some of the rides are liable to go off the tracks  
And you never know where they'll end up  
Or in how many pieces
