

Little White Lie

Sammy Hagar & The Circle

Little white lie's been around for years
Little white lie's ringing in your ears
Turn around come around back on you
Well that little white lie's catching up to you Little white lie, say what you got to
Little white lie, come back to haunt you
Little white lie, you got one, you got two
Little white lie Head like a box, got legs that crawl
My ears can see, I'm a fly on the wall
I got bones that feel, eyes that touch
Yeah you're falling in deep 'cause you're talkin' too much Little white lie, say what you got to
Little white lie, come back to haunt you
Little white lie, you got one, you got two
Little white lie, come round to back you Little white lie, caught in the vacuum
Little white lie, come back to haunt you
Little white lie, say what you got to
Little white lie, do what you gotta do Little white lie, say what you want to
Little white lie, come back to haunt you
Little white lie
Yeah yeah yeah yeah yeah yeah Flip top box top got to keep 'em buzzing
Got 'em by the ear, got 'em by the dozen
Shut 'em up, cover up, got to distract them, yeah
You know you're gonna get a psychotic reaction Little white lie, say what you got to
Little white lie, come back to haunt you
Little white lie, you got one you got two
Little white lie, come round to back you Little white lie, say what you have to
Little white lie, come back to haunt you
Little white lie, caught in the vacuum
Little white lie, come round to back you Little white lie, yeah
Little white lie, yeah
Little white lie, yeah
Little white lie
