Under My Bed

Amy Kuney

Verse 1:
Come to my window, my house is asleep
Ill leave a light on for you
The chain-linked fence slaps against the winds cheek
Breaking the silent curfewChorus 1:
Through cupped hands, we make plans
So they wont take us away
Though harm sleeps, our instincts
Are fighting to keep us awake
Come and live under my bedVerse 2:
(My) closet is where all the wild things hide
When Im alone they take charge
But your flashlights a gun
Yellow bullets of light
Battles my fear of the darkChorus 2:
Through cupped hands, we make plans
So they wont take us away
Though harm sleeps our instincts
Are fighting to keep us awake
Come and live under my bed
Its what Ive always wantedVerse 3:
Wake ups are hiccups I have in my dreams
I hold my breath till Im blue
Though pins and needles my put me to sleep
Ill never lose feeling for youChorus 3:
Through cupped hands, we make plans
So they wont take us away
Though harm sleeps our instincts
Are fighting to keep us awake
Come and live under my bed
Its what Ive always wanted
Dont tell anybody especially grown-ups
'Cause grown-ups would not understand
So come and live under my bed
