Screamin

Street To Nowhere

Don't you know that we're screamin' with a new set of lungs.
Don't you know that we're screamin' 'til the neighbors pack up.
My mother called me today, she said she's making up my cluttered old room.
My father called me today, He said he wont be ashamed if I'm coming home soon.
Don't you know that we're screamin' to stay hot in the scene.
Don't you know that we're scheming on this worn out rhyme scheme.
The Power is out.
A Tree's coming down.
No acoustic around, crossed out in this house.
Just give me a D or I'll sing out of key.
Please don't make me please don't make me.
My brother left a message, he said he got pushed down and he broke his guitar. I called back and said, give me the pieces man,
I need a fresh start.
[yeah we all need a fresh start]
[and I'm gonna get my fresh start]
[and I'm gonna wreck my fresh start]
Don't you know that we're screamin' with a new set of lungs.
Don't you know that we're screamin' 'til the neighbors shut up.
