Out Of Control Raging Fire

Patty Loveless

Today an old heartache came callin'
An old flame I thought died out like some fallin' star
Instead it's rekindlin' some embers
That may start an out of control ragin' fireThat look in your eyes brings back memories
You still have that same smile that once won my heart
The bittersweet feelings still linger
That once fueled our out of control ragin' fireThat out of control ragin' fire
Pain has no memory when you burn with desire
The flames grow higher and higher
Till we've reached an out of control ragin' fireInside us the passion is burnin'
It's too late to stop what we've started tonight
How can we resist this temptation
To re-start an out of control ragin' fireThat out of control ragin' fire
Pain has no memory when you burn with desire
The flames grow higher and higher
Till we've reached an out of control ragin' fire
Yes, we've reached an out of control ragin' fire
