

Flashback Radio

[Axxis](#)

I turn the radio off
Don't wanna hear that crap
All this computer stuff
Sounds like a handicap They rap and hip and hop
They cover songs and sounds
They just create their style
Stealing ideas from all around I don't wanna change you, I don't say I'm right
Their music is a mirror of a world full of ice
Everybody fights alone, searching peace of mind Hear the flashback radio
Turn it loud the speakers blow
It will hit your ears
Your heart and touch your soul Hear the flashback radio
Try the flashback music show
Unforgotten songs
And everlasting sounds, everlasting sounds It's gonna make me sick
It's all this techno hype
Can't hear it anymore
Oh, I don't like this vibes Some songs for the passing craze
Come in a rush in and out
Forgotten in the haze
Lost in the mindless outer space I don't wanna change you, I don't say I'm right
Their music is a mirror of a world full of ice
Everybody fights alone, searching peace of mind Hear the flashback radio
Turn it loud, the speakers blow
It will hit your ears
Your heart and touch your soul. Hear the flashback radio
Try the flashback music show
Unforgotten songs
And everlasting sounds
Hear the flashback radio Flashback radio
Flashback radio Hear the flashback radio
Try the flashback music show
It will hit your ears
Your heart and touch your soul
Flashback radio Hear the flashback radio
Turn it loud, the speakers blow
Turn it loud, the speakers blow
In the flashback radio Hear the flashback radio
Try the flashback music show

Unforgotten songs And everlasting sounds

In the flashback radio

In the flashback radio, flashback radio
