

# Maybe

## Birdy

Maybe,  
I know it's just maybe.  
And we're only dreaming  
For how this will go By maybe  
One day this daydream  
Will turn into real things  
For all that we know We could be doing anything that we love  
Just be carried by the way that the wind blows  
You could be do anything you dream of  
If you believe in the things  
That make you strong Someday  
We'll meet on the high street  
We'll laugh about when we  
Worried about what we might be  
Then maybe  
We'll talk about old days  
We'll smile in our old ways  
You'll always be part of me We could be doing anything that we love  
Just be carried by the way the wind blows  
You could be doing anything you dream of  
If you believe in the things  
That make you strong You could be doing anything you dream of  
If you believe in the things  
That make you strong Maybe  
I know its just maybe  
And were only dreaming  
For how this will go  
Just maybe  
(You could be doing anything you dream of)  
Maybe  
Maybe
