House of Fools

Shining Light
Shining light in the valley
Shining Light shining light in the wilderness
So come with me Let's move right into that valley
Where everyone's so happy and they're never walking alone, walking alone
You have lots for fun way down into that valley
You find a piece of your and trees with leaves like candy
So don't be late I'm moving into that valley where everyone seems happy and there's no street moving along moving along
