

# Empathy

## Pyogenesis

[Music & Lyrics: Flo V. Schwarz]Life is over, oh can't you see,  
now all these angles come down to me  
and they all hug me, kiss me, heal me, treat me,  
give back my life. I feel gratefull, gratefull for my life  
Empathy, endlessly, empathy - all right  
Empathy, endlessly, empathy - all right  
Thank the angels, I'm not underneath  
surrounded by all my friends I breath  
and they all hug me, kiss me, heal me, treat me,  
give back my life. I feel gratefull, gratefull for my life  
Empathy, endlessly, empathy - all right  
Empathy, endlessly, empathy - all right  
Empathy, endlessly, empathy - all right  
Empathy, endlessly, empathy - all right
