

Love

Justin Nozuka

Swimming in this moment
Guided by your sound
The current strong and rolling
And there isn't any doubt
I think I'm in love, I feel like my heart's exploding
And over the sun, a million lions soaring
And on my way to reach the gate
You take my hand and pull me in again
Love, love
On the land, the seasons
Combine to make a new
Where the air is full emotions
In every breath I'm taking in, I feel you now
I think I'm in love, I feel like my heart's exploding
The beat of the drum, a million lions roaring
And on my way to reach the gate
You take my hand and pull me in again
Oh, higher and miles away
Oh, higher and miles away
Oh, I wanna stay
I know I'm in love, I feel like my heart's exploding
The beat of the drum, a million lions roaring
And on my way to reach the gate
You take my hand and pull me in again
Now I'm in love, I feel like my heart's exploding
The beat of the drum, a million lions roaring
And on my way to reach the gate
You take my hand and pull me in again
You take my hand and pull me in again
Love, love
