

# In Your Dreams Tonight

## Agent Orange

If your whole life feels incomplete  
Learn this song and sing yourself to sleep  
Anger turns to hatred as the nights turn into days  
People disappoint me in so many different ways  
Don't be sad, it's not so bad  
Just use your weary mind to add  
Some color to these lives all black and white  
In your dreams tonight  
Intensify the feel, the sound, the sight  
In living color  
In your dreams tonight  
Love belongs to no one, no one seems to care  
I'm convinced that I could change your mind, if I was there  
Close your eyes drift off to sleep  
This song I sing is yours to keep  
Think of me, you'll be all right we'll be together  
In your dreams tonight  
Intensify the feel, the sound, the sight  
I promise  
I'll be in your dreams tonight  
Tonight  
Tonight  
Tonight  
In your dreams tonight  
[Incomprehensible]  
People try so hard it doesn't mean a thing  
Just think of all the happiness this little one will bring  
Looking through your eyes  
I see the things you see  
Reaching out to grab a hold of me  
In your dreams tonight  
Intensify the feel, the sound, the sight  
Yeah, the answer will be  
In your dreams tonight  
This is the voice, this is the voice  
This is the voice of you know who
