

# Real Love

## Rebecca Lynn Howard

We were young, moved way too fast  
Soon the future was the past  
Now here we are  
Wondering who we areBlame lust, blame it on fate  
Blame it on we just couldn't wait  
To feel the fire burning in our heartsIt ain't love, if it ain't real love  
It ain't worth holding in this pain  
When we're both about to burst  
I think its time  
We take a long hard look at us  
'Cause it ain't love, if it ain't real loveWe should try to shine a light  
On the truth, what's wrong and right  
That's the only way to get beyond the anger  
Can't play love like it's a game  
Say my touch ain't quite the same  
And when I'm holding you  
It's like I've held a stranger[Chorus:]Oh but hope may be the best for both of us  
'Cause it ain't love, if it ain't real love  
If ain't real love
