Heavy Weather

Cousteau

Where you been lately
You used to light up the streets
With your style
I've been here waiting
For less than a year
For more than a whileHow well I remember
It's always a theme park
Tall tales and true
A time built of ribbons
And little girl dreams
Tattered and strewnThere's been some heavy, heavy weather
Lately baby
Will you tell me the newsCool smooth motion
The lighthouse is on
The keeper's not in
We'd light up the ocean
And never escape
The things that we've seen
