

Rastaman Portion

Eustace

Still blazin, though the system keep on fighting

Rastaman portion
What a good vibration
Tell it to the nation
We need legalization
Rastaman portion
What a sweet sensation
Form organization, co-orperation

I still burn, I still burn, I still burn, I still burn, I still blaze it
I still burn, I still burn, I still burn, I still burn, I still blaze it
I still burn, I still burn, I still burn, I still burn, I still blaze it
I still burn, I still burn, I still burn, I still burn, I still blaze it

Blazin the trees having so much fun
Blazin the kush until it's done
In times like these, taking precaution
Real ganja man, mi have mi portion
Why so hostile it's only trees
Herb is the healing of the nation
That's why we're chanting for legalization, ok, uhh
