

Let It Go

Cherri Bomb

You never see my way
Pissing on my flame
I'll be the one left standing With everything I do
It never pleases you
But I'll be the last one laughing Listen
You're always missing
Blind to my vision
No I just won't let it go
Just can't let it go
Just won't let it go No matter what it's in my blood I just won't let it go
Just can't let it go
Just won't let it go It won't die this dream's alive
And I won't let it go I thought I'd try your way
But I went down in flames
I should've seen it coming Life is more than sitting back
Oh I'm on the attack
And now I'm off and running Listen I'm on a mission
Done with ass kissing
No I just won't let it go
Just can't let it go
Just won't let it go
No matter what it's in my blood I just won't let it go
Just can't let it go
Just won't let it go
It won't die
This dream's alive
And I won't let it go It's in my blood and I won't give up 'cause it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flames It's in my blood and I won't give up 'cause
it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flames It's in my blood and I won't give up 'cause
it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flames I just won't let it go
Just can't let it go
Just won't let it go No matter what it's in my blood I just won't let it go
Just can't let it go
Just won't let it go It won't die this dream's alive
It won't die this dream's alive
And I won't let it go, let it go
