Let It Go

Cherri Bomb

You never see my way

Pissing on my flame

I'll be the one left standingWith everything I do

It never pleases you

But I'll be the last one laughingListen

You're always missing

Blind to my vision

NoI just won't let it go

Just can't let it go

Just won't let it goNo matter what it's in my bloodI just won't let it go

Just can't let it go

Just won't let it goIt won't die this dream's alive

And I won't let it goI thought I'd try your way

But I went down in flames

I should've seen it comingLife is more than siting back

Oh I'm on the attack

And now I'm off and runningListen I'm on a mission

Done with ass kissing

NoI just won't let it go

Just can't let it go

Just won't let it go

No matter what it's in my bloodI just won't let it go

Just can't let it go

Just won't let it go

It won't die

This dream's alive

And I won't let it goIt's in my blood and I won't give up 'cause it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flamesIt's in my blood and I won't give up 'cause
it's running through my veins

It's in my blood 'cause it's all I want and I won't go down in flamesIt's in my blood and I won't give up 'cause it's running through my veins

It's in my blood 'cause it's all I want and I won't go down in flamesI just won't let it go

Just can't let it go

Just won't let it goNo matter what it's in my bloodI just won't let it go

Just can't let it go

Just won't let it goIt won't die this dream's alive

It won't die this dream's alive

And I won't let it go, let it go
