Hey Now

Prime Circle

I guess you feel the same
I guess you mean it like you say it
I guess it's all just figured out
In the space that lies between us
And I can hear it shouted out
As it echoes through the buildings
Now I feel overcome
We need it fast and I don't know why
Cuz I'm all down and out again
I'm feelin' it come down andHey now, don't look back
Always look forward stay on track and
Hey now, don't look back
Always look forward stay on track andOh you're feeling like you won
Suppose it's everything and more
Well I just guess it's all you need
I guess it's what you're searching for
I'm feeling come back again
I'm losing it all
I can't feel anythingHey now, don't look back
Always look forward stay on track and
Hey now, don't look back
Always look forward stay on track andWell I'm just guessing once again
I'm just feeling in the dark
I need a light to guide the way
Trying to see what I'm a part of
Well you feel overcome
You feel like it's over
It Could've been anything now
Try keep holding on
And take aback
So come on out and see what it's all about andHey now, don't look back
Always look forward stay on track and
Hey now, don't look back
Always look forward stay on track and
Hey now, don't look back
Always look forward stay on track and
Hey now, don't look back
Always look forward stay on track and
