

New American Century

KMFDM

Count your blessings walk the line
Don't move too fast or fall behind
There are rules you must obey
They get re-written by the day Don't do this, don't say that
Your every move is logged and tracked
By the all oppressive eye
Spy satellites in friendly skies The new American century
Has only just begun
No one exempt from the tragedy
Counterattack start pushing back Fight the power
That chokes your speech
Fight the power
That makes you bleed Fight the power
That propagates lies
To keep you weak
Keep you in line No one dares to say a word
Our panic drives all human herds
In the land where cash is king
Our silence bought and sold for free The future's banging on our door
When real I.D. will be the law
Love thy neighbor and turn him in
It's call patriotism The world is watching in disbelief
Chanting shame on you
How can you stand by so quietly
Letting them rape your liberties Fight the power
That chokes your speech
Fight the power
That makes you bleed Fight the power
That propagates lies
To keep you weak
Keep you in line Fight the power
That reigns you in
Divides and conquers
Defines your sin Fight the power
For one and all
Before the power
Swallows us whole Those who cannot learn from history
Are doomed to repeat it You can't be bothered or concerned
You see no reason for alarm

Prejudice, religion hate usher in the new mandateAbsolute and resolved

One nation under one God

Lack of interest has its price

As we're stripped of all our rightsThe new American century

The new American centuryFight the power

That chokes your speech

Fight the power

That makes you bleedFight the power

That propagates lies

To keep you weak

Keep you in lineFight the power

That reigns you in

Divides and conquers

Defines your sinFight the power

For one and all

Before the power

Swallows us wholeFight the power
