Bleeding

Ignite

To my country
The mounting costs
Our freedom's lost
The death of libertyWe live in a Kingdom of reigns
The dogs of war rule the day
The hypocrites roam in gangs
The truth is lost
It's wars first casualtySpeak the truth
If you've got something to say
To leaf the boys off to war
Is to throw them away
Depleted rounds kill
RU-238
These troubled times
Bringing on our darkest daysIs this the death of liberty
Is this the price that life has come to mean
All our friends, now enemies
The misery ofBleeding
To my country
The mounting costs
Our freedom's lost
The death of libertyTell the truth
If you've got something to say
No blood for oil, killing fields
Halliburton money
Wounded troops left to rot
No help from the VA
These troubled times
Bringing on our darkest daysIs this the death of liberty
Is this the price that life has come to mean
All our friends, now enemies
The misery ofBleeding
To my country
The mounting costs
Our freedom's lost
The death of libertySpeak the truth or Throw it awayIs this the death of liberty
Is this the price that life has come to mean
All our friends, now enemies
The misery ofBleeding

To my country
The mounting costs
Our freedom's lost
The death of liberty
