

# Like The Rose

## B-witched

Every little word, with every lesson learned  
I think I know why hearts are made of stone  
Every little pain, fans a bitter flame  
Nothing stops me loving you  
Well can't you see that we belong?  
Oh how I want it to be  
So tell me do you feel the way I feel  
Baby like the rose, oh darling  
You put color in my life  
Baby take my heart forever  
'Cause I don't want to be afraid, no, no  
Turn another page, the story will never fade  
Sleep with thoughts of you until daylight  
When you're far away, forever love will stay  
Keep this loving feeling deep inside  
Can't you see that we belong?  
Oh how I wanted to be  
So tell me do you feel the way I feel  
Baby like the rose, oh darling  
You put color in my life  
Baby take my heart forever  
'Cause I don't want to be afraid, no, no  
Baby like the rose, oh darling  
You put color in my life  
Baby take my heart forever  
'Cause you're the color in my life, oh  
Like the rose
