

A Feeling

Afterlife

The good time,
The feeling,
The meaning ...

The brightness,
The burning,
The feeling ...

The dream that,
I'm dreaming,
It's will it's ...

Something to,
Believe in,
The meaning ...

The night love,
The motion,
The feeling, converting ...

The dancing,
Devotion,
A meaning, converting ...

The centaur,
The ocean,
I'm dreaming, converting ...

Something to,
Believe in,
The meaning, converting ...

The good times,
The feeling,
The meaning, converting ...

The brightness,
The burning,
The feeling, converting ...

The dream that,
I'm dreaming,
It's will it's, converting ...

Something to,
Believe in,
The meaning, converting ...

When I said you made the world to me, the world could see
When I said you were the only one, who just begone

I want to wake and find, the summer's gone, now feel the sun ...
I want to wake up, wake up in your arms, when tomorrow comes ...

Converting ... (3x)

The night love,
The motion,
The feeling ...

The dancing,
Devotion,
A meaning, converting ...

The centaur,
The ocean,
I'm dreaming ...

Something to,
Believe in,
The meaning, converting ...

When I said you made the world to me, the world could see
When I said you were the only one, who just begone

I want to wake and find, the summer's gone, now feel the sun ...
I want to wake up, wake up in your arms, when tomorrow comes ...

Converting...
