

Moon Love

Die Antwoord

Mommy, my heart is broken
Because my daddy might fix it!
Yea, I'll fix it, come here
Mommy can you move away?
Come lie in your space, I'll tell her to go fix it. I'll fix it, lie in the space here
But mommy can't have a space for me here
She's just dreaming. She's dreaming. Let me make a space, yeah?
Heh, sorry
No problem. Just tell me what's the problem.
Is your heart, is your heart, how does it feel?
What's wrong with it? Is your heart broken? Okay, I'll fix it
Fix it like this, do that
Just give me one tuck, I just love you so much
I can't get a tuck because my heart is broken
I'll fix it
My heart is fixed! Mommy my heart is fixed
