Tell Lie Vision

Jerrico

Turn it on/turn it off
Tune it in/ tune it out
Flip the channel / turn the knob
Close ur mind/ shut ur mouthDem main source of revenue are the advertisers
Large corporations as the media owners
So the media business follow whatever dem order
Commanding, demanding dem ratings fi go higher
So dem put constant pressure pon the show writer
Pressure pon director and pressure pon producer
Dem have fi get great ratings fi get paid top dollar
And guess what? Sex and violence is dem formula
No doubt the growth of the media, is linked to the growth of the wicked behavior
The wicked behavior of most children and teenager
Influenced by tv shows wit sex and disorder
Sex pon soap operas, and sex pon shows during the time dem label family hour
Even pon talk shows, sex no. 1 rumor
And good entertainment means sex is the main featureTv viewers seem to have same feelings and conception
But dem values are not of moral and spiritual foundation
Instead dem busy following shows on tell-lie-vision
Peoples thoughts controlled by media organization
Television a reveal a lot of information
Bout images and values of the population
I wan u watch it watch it and keep wise observation
Ull see we live in a de violent and eroticized nation
Commercials for cars, cigarettes, alcohol, packaged food
Soda pop, fastfood, chewing gum use sexual metaphors
For big money collection
Even eroticism to the product has no connection
Dem still use it fi toy with deep human emotion
Subliminal changes of sounds and images in split second
Make emotional impact, leavin no time for reflection
Designed to run down the risk of viewer realization
That most things pon the tube are falsehood and deception
