

# Echo

## NONONO

All around me familiar faces  
But I can't seem to place the  
Surrounded by familiar places  
But oh, don't feel like home  
Now how is I to know  
The echo is about to grow?  
Now how do I retain  
The echo, echo, echo?Uh, close to lifeAll around you familiar faces  
But I can't seem to trace them  
Surrounded by love and embraces  
But I don't feel a thing  
But how was I to know  
That the echo is about to grow?  
Now how do I retain  
The echo, echo, echo?Uh, close to life  
Uh, close to life  
Uh, close to life  
Uh, close to life  
Echo, echo, echo  
Uh, close to life
