

# Space Remains

## Bear In Heaven

There  
There are  
There are greater  
Elevators and  
We will take  
Them later on  
Up from the  
Craters to  
The stars  
Then beyond  
After that  
Were goneWe move through  
Other planes  
Still here  
Our space remainsThere  
There are  
There are greater  
Elevators and  
We will take  
Them later on  
We will all  
Be there  
Before longWe  
We move through  
We move through  
Other planes  
Still here  
Our space remainsThere  
There are  
There are greater  
Elevators and  
We will take  
Them later on  
Up from the  
Craters to  
The stars  
Then beyond  
After that  
Were goneWe move through

Other planes  
Still here  
Our space remains  
Our space remains  
Our space remains  
Our space remains
