

# Secrets

Jordan Pruitt

Secrets are no good I know your secret  
I know who you're really with  
You told me one thing  
And I saw something different Why all the secrets?  
You could've told me who you're really with  
So I didn't have to find out  
That you'd be leaving me here like this (Do, do, do, do, do)  
Why'd you do it?  
(Do, do, do, do, do)  
Why'd you do it? Guess I had to let you go  
'Cause I was the last the know  
That our love was on the ropes  
You just can't fix what's already broke So today I'll set you free  
From the secret that you keep  
It's so sad you had to sneak  
You thought you had it all  
But now you don't have me (I thought I had it all)  
You don't have me  
(I should've had it all)  
You can't have me  
(I would've had it all, oh yeah) Humiliated  
All I wanted was the truth  
Not appreciated  
Was I not good enough for you? Manipulated  
You pulled the covers over my eyes  
So I couldn't see what you were doin'  
You were just a player in disguise (Do, do, do, do, do)  
Why'd you do it?  
(Do, do, do, do, do)  
Why'd you do it? Guess I had to let you go  
'Cause I was the last the know  
That our love was on the ropes  
You just can't fix what's already broke So today I'll set you free  
From the secret that you keep  
It's so sad you had to sneak  
You thought you had it all  
But now you don't have me (I thought I had it all)  
You don't have me  
(I should've had it all)

You can't have me  
(I would've had it all, oh yeah)All your secrets hurt so bad  
(Do, do, do, do, do)  
Why'd you do it?  
(Do, do, do, do, do)  
(Do, do, do, do, do)  
You didn't have to do it  
(Do, do, do, do, do)Guess I had to let you go  
'Cause I was the last the know  
That our love was on the ropes  
You just can't fix what's already brokeSo today I'll set you free  
From the secret that you keep  
It's so sad you had to sneak  
You thought you had it all  
But now you don't have me(I thought I had it all)  
You don't have me  
(I should've had it all)  
You can't have me  
(I would've had it all, oh yeah)I thought I had it all  
I would've had it all  
I should've had it allI thought I had it all  
I should've had it all  
I would've had it all
