

# Shallows

## Mallard

Let the water rise  
Let the ground crack  
Let me fall inside  
Lying on my back  
Lying on my back

Dry your smoke-stung eyes  
So you can see the light  
You're staring at the sky  
Watching stars collide  
Watching stars collide

If you leave  
When I go  
Find me  
In the shallows

When the time comes  
On the last day  
When they start to come down  
Will you just  
Will you run away?  
Will you run away?

And let it all rain down  
From the blood stained clouds  
Come out, come out, to the sea my love  
And just  
Drown with me  
Drown with me

If you leave  
When I go  
Find me  
In the shallows

Lying on my back  
Watching stars collide
