

# Don't Misunderstand

Adam Rogers, David Binney, Reuben Rogers & Gerald

You came to me  
Saying, Are you ready  
To close your eyes  
Take off your disguise?(I)  
Said, I don't know  
How far can this go?  
Walking on a tightrope  
Isn't my sort of dope  
You see, it's way too much for me  
Don't misunderstand me please, baby  
So many things are often said in vain  
Don't misunderstand me please, baby  
You can ask me again  
Then everything went wrong  
I never thought  
Silence could be so strong  
Believe it or not  
You came to me  
Saying, Would you be  
A funambulist?  
But it wasn't on my list  
Of things to do  
And you got angry too  
Don't misunderstand me please, baby  
So many things are often said in vain  
Don't misunderstand me please, baby  
You can ask me again  
Don't misunderstand me please, baby  
So many things are often said in vain  
So give me a hand and then maybe  
Voices in my head saying yes and no  
Feelings and emotions that I can't let go  
Don't misunderstand me please, baby  
So many things are often said in vain  
Don't misunderstand me please, baby  
Don't misunderstand  
You must understand
