

Turn up the Mains

Jesse Malin

Coming down on the seventh day
I'm burnin' in the rhythm of life
You dig a ditch like a working stiff
And it all goes passing you by
Well come on, everybody's got a lot to say
Come on, when you want to blow it all away
Come on, right now I can't feel no pain
Come on, kick the system and turn up the mains
And I feel okay, I feel okay, I don't feel
Your closet's stacked
and your on your back
'Cause you've never been denied
You're feeling sore but you want some more
Ride, Sally, ride
Well come on, everybody's got a lot to say
Come on, when you want to blow it all away
Come on, right now I can't feel no pain
Come on, kick the system and turn up the mains
And I feel okay, I feel okay, I don't feel
The place is packed and
the kids are jacked
On those anti-social songs
You swing low like a halo
And you're wishing you were never born
Well come on, everybody's got a lot to say
Come on, when you want to blow it all away
Come on, right now I can't feel no pain
Come on, kick the system and turn up the mains
And I feel okay, I feel okay, I don't feel
And I feel okay, I feel okay, I don't feel
And I feel okay, I feel okay, I don't feel
