Momentary

Hands Like Houses

I'm just interference
Noise and whispers
A shadow in the light
I'm dust on the record stop,
A static, a click, a compromise
A discord, a spark, a silhouette
A shady ghost, an echo of what's leftChorus:
Help me touch the ground
Cause all that's heavy in me
Still won't weigh me downPath of least-resistance
Pins and needles
We shall take it to the ground
Now I'm interruption
Infinite and momentary
I'm onto this destruction
Incomplete and temporaryChorus:
Help me touch the ground
Cause all that's heavy in me
Still won't weigh me down
Bring me back to the surface
I'm done with this weightlessness
Help me find my way back downI'm just interference
A moment placed in time
Now I'm interruption
Infinite and momentary
I'm onto this destruction
Incomplete and temporaryChorus:
Help me touch the ground
Cause all that's heavy in me
Still won't weigh me down
Bring me back to the surface
I'm done with this weightlessness
Help me find my way back down
