UP!

Samantha Jade

We own the night, we own the night
So let's turn it turn it up
Till we reach the other side
We're flying high, flying so high
Let's turn it turn it up
Tonight we're dancing in the sky
Let behind you?, million miles away from the sun
Get the lights and take me to heaven
Turn it, turn it up!
When I feel your heart beating faster
Hide the love from the drums
Turn the speakers up to the shadow
Turn it, turn it upLet's turn it up, you know I like it loud
Let's turn it up, don't stay turn it turn it
Turn it up, it's going hundred miles
Turn it up, up up up
Let's turn it up, you know I like it loud
Let's turn it up, say turn it turn it
Turn it up, it's going hundred miles
Turn it up, up up upWe own the light, we own the light
So let's turn it turn it up
Tonight it's only you & I
We own the stars, shine like the stars
So let's turn it turn it tonight this world is ours
Let behind you?, million miles away from the sun
Get the lights and take me to heaven
Turn it, turn it up!
When I feel your heart beating faster
Hide the love from the drums
Turn the speakers up to the shadow
Turn it, turn it upLet's turn it up, you know I like it loud
Let's turn it up, don't stay turn it turn it
Turn it up, it's going hundred miles
Turn it up, up up up
Let's turn it up, you know I like it loud
Let's turn it up, don't stay turn it turn it
Turn it up, it's going hundred miles
Turn it up, up up up
(X2)
