

# Never Try

## PUP

Every morning I keep sleeping  
'Cause in the nighttime, I'm dreamin' of  
My childhood schoolyard  
I was breathing  
Air on the street where I grew up You tell me I should know better  
You're probably right  
It's just a phase  
I'll come back ten years from now  
And nothing will have changed  
'Cause I know I never try  
Oh oh oh oh oh  
And I wanna know  
If I leave here alive  
Oh oh oh oh oh Am I too old  
To be camping out  
On my back porch  
In the suburbs  
Where I was born  
You never made me happy  
And I know I never try  
Oh oh oh oh oh  
And I wanna know,  
If I leave here alive  
Oh oh oh oh oh
