Neon Lovers

Soraya

I know what you're dreaming of
I see it in your eyes
You've been waiting for my love
Let me make it right
Something in our chemicals
We're the burning kind
When our hearts fire up
We reflect the lightOh, city streets unfold
Oh, broken hearts of chrome
Oh, baby it's cold ouside
But your arms feel like homeWe don't need nobody else around us
Let the world erode
Moving throught the night into the twilight
Fluorescent we glowLike neon lovers
Like neon lovers
Like neon lovers
Fluorescent we glow...Hidden ceremonials
Players in the dark
Lat your body fire up
I ignite the sparkOh, city streets unfold
Oh, broken hearts of chrome
Oh, baby it's cold ouside
But your arms feel like homeWe don't need nobody else around us
Let the world erode
Moving throught the night into the twilight
Fluorescent we glowLike neon lovers
Like neon lovers
Like neon lovers
Fluorescent we glow...Fluorescent we glow...
Fluorescent we glow...
Fluorescent we glow...
Fluorescent we glow...Like neon lovers
Like neon lovers
Like neon lovers
Fluorescent we glow...
Like neon lovers
Like neon lovers
Like neon lovers
Fluorescent we glow...
