Thinkin' Out Loud

Fu Manchu

A day unlike I have seen
No sound, no smell
Know what I mean?
Now I'll see what today will bringEarth opens wide
Swallows me whole
I slide to where I do not know
The end of life as I've knownCus I've been
Searching for something
Down here
Thinking out loud
Wating for nothing
My mind's been
Thinking out loudI end up where I began
Or is this part of the plan?
I slowly turn my head aroundCus I've been
Searching for something
Down here
Thinking out loud
Wating for nothing
My mind's been
Thinking out loudCus I've been
Searching for something
Down here
Thinking out loud
Wating for nothing
My mind's been
Thinking out loudI walk alone
The town is dry
I recall profit the sky
Earth opened wide, swallowed me whole
So on and on I goCus I've been
Searching for something
Down here
Thinking out loud
Wating for nothing
My mind's been
Thinking out loudCus I've been
Searching for something
Down here

Thinking out loud
Wating for nothing
My mind's been
Thinking out loud
