Electroshock

Telefunka

Sweat, sweat, 'cos Im a poisonous pill
Pop me in your mouth, baby, sit and be still
Not yet, I aint through wit you, girl
Put me in your glass, baby, give me a swirlDont stop, dont let it
(Oh)
Freeze up your trembling limbs
Dont you regret it
(Oh)
'Cos you can bet that this wont
Even ever happen againSo hold me close tiny dancer
The only thing Ive got is this electro rock cancer
I saw a picture on the canvas
Baby's got a ciggy in her lips and now shes cancerousYes, yes, in your tight white dress
Youre all alone and Im about to microphone check
Oh, yeah, prep the area here
Shock, shock, electro rock and steady now clearYes, yes, in my tight white vest
Youre all alone and Im about to microphone check
Oh, yeah, prep the area here
Shock, shock, electro rock and steady now clearSweat, sweat, 'cos Im a poisonous pill
Pop me in your mouth, baby, sit and be still
Not yet, I aint through wit you girl
Put me in your glass, baby, give me a swirlI am ecstatic, hat full of magic tricks
You are kinetic, slow down, baby
Don't leave me so quickSo hold me close tiny dancer
The only thing Ive got is this electro rock cancer
I saw a picture on the canvas
Babys got a ciggy and he let her know shes cancerousYes, yes, in your tight white dress
Youre all alone and Im about to microphone check
Oh, yeah, prep the area here
Shock, shock, electro rock and steady now clearYes, yes, in your tight white dress
Youre all alone and Im about to microphone check
Oh, yeah, prep the area here
Shock, shock, electro rock and steady now clearSteady now, steady, steady now, clear
